On 9 March 1951, 10 new switches were being installed in the area of the
Bad Kleinen (M 54/T 48) railroad station. Surveying was done by Soviet
officers and civilians. *

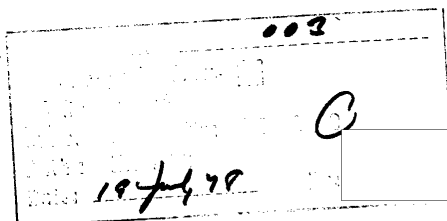

* Comments: Bad Kleinen is the junction between the single-track
Pasewalk (N 54/Q 16) - Guestrow (M 54/T 98) - Luebeck (M 54/S 98) and
Hagenow (M 54/T 24) - Schwerin - Wismar (M 54/T 49) railroad lines. It
is of importance for the traffic to the port of Wismar. It appears
that the trackage of the railroad station is inadequate because of the
expansion of the port of Wismar.
